**14th World Congress of Semiotics  
of the International Association of Semiotics Studies /  
Association Internationale de Sémiotique -IASS/AIS-  
organized by the Argentine Association of Semiotics Studies and the National University of  
Arts  
Buenos Aires, 9-13 september 2019  
3rd announcement - Organization and Format of Presentations**

We provide more information on the organization of the round tables, deadlines, fees and composition of the Scientific Committee of the 14th World Congress of Semiotics of the International Association of Semiotic Studies – IASS/AIS, to be held on September 9-13, in Buenos Aires, Argentina.

**Organization and Format of Presentations**

The presentations will last 20 minutes and 10 minutes will be reserved per presentation for questions and comments (alternated or at the end of the series of presentations). Each session will last an hour and a half and it will include up to three presentations.

The composition of the sessions will be defined by the Scientific Committee and by the Organizing Committee based on the proposed themes. All the sessions will gather presentations with a criterion of thematic affinity, and whenever possible, we will try to schedule in sequence the sessions that share a theme or field of common interest, in order to generate a series of presentations and to organize the debates on the same day and in the same room.

Speakers are asked to complement the oral presentation with a visual presentation in a different language from the one used by the speaker; it can be either Spanish or English.

Each day there will be two periods of semi-plenary presentations of one hour with two invited keynote speakers in each one, and there will be up to four simultaneous sessions.

The format that was chosen for the sessions and semi-plenary presentations aims at profiting from the international nature of the congress to favor the meeting and promote the dialogue between participants of different countries based on the common issues dealt with or the common approaches. We consider that this format will make it possible to show the production of the different university chairs and research teams as well as promote contact among networks, projects and publications of international scope. The main goal of the 14th World Congress of Semiotic is the construction of a place for the encounter and exchange among researchers and specialists in the field.

Those who wish to share the round table with other researchers under a specific subtopic, are asked to let us know about this proposal together with the submission of each abstract. The proposal will be considered by the Organizing Committee. In those cases, the round table will be categorized with that subtopic in the program.

Those who wish to present presentations or launch publication are asked to send them to the email address of the Congress from March 30 to April 30.

**Other information of interest**

- Deadline for submission of abstracts: December 5th, 2018 ([more information](#))
- Reduction of fees corresponding to the participants from the countries of segments 2 and 3 ([more information](#))
- Publication of the Scientific Committee ([more information](#))
